SELECTMEN'S AND MANAGER'S REPORT

Once more, extensive growth and expansion best describe the Town of Essex during 1968. The fact that 150 building permits were issued during the year, representing a \$2,288,510 estimated investment in the Town, is a sound indicator of the community's economic activity. This twelve month period was one of new employees working with the Selectmen in becoming acquainted with the area and neighborhoods and developing into productive workers for the Town. The actual personnel structure remains as established in 1967.

Highway

A planned program of Town road development was initiated during the year. In some cases, completed work may be difficult to notice but in the long run, the overall effect should be a noticeably improved road system. As the first phase of this development effort, the following work was accomplished which lays the foundation for all future endeavors.

Town Highway #17 Bridge replaced with 54" pipe arch.

Town Highway #35 Pinecrest Double tack coat applied.

The following areas were widened, ditched, and culverts installed:

Town Highway #16 Osgood Hill .6 mi.

Town Highway #15 Catella Road (Curves only)

Town Highway #37 Short Cut .75 mi.

Town Highway # 8 Mansfield 300 feet

Town Highway #20 Page Road 5000 feet

Town Highway #43 Pinewood Manor Entrance paved and ditched.

Route 117 Spot paved 1.1 mi.

State Aid #2 Paved .4 mi.

20 new culverts were installed along various roads.

In addition to the above work, Vermont Rt. #128 from Essex Center to the Westford Line was put into shape and turned over to the State of Vermont for maintenance. This road is no longer a part of the road system of the Town of Essex. It now is part of the State highway network.

Summer work for 1969 probably will include the paving of Kellogg Road, a portion of Brigham Hill Road and surface treatment of some of the more recently paved development streets. Widening portions of the Lost Nation road also is under study. General improvement of drainage and surface conditions will continue.

Welfare

On October 1, 1968, the State of Vermont took over all welfare responsibilities in the State. Expenditures by the Town of Essex for welfare purposes, therefore, decreased.

Even though the State of Vermont has taken over all of the welfare activity in the State, it is to be noted that the towns have

to liquidate welfare obligations and liabilities incurred prior to October 1, 1968. The proposed budget for 1969, therefore, includes some anticipated welfare expenditures. The largest item is the \$21,000 for hospital debts incurred prior to October 1. It is anticipated that it will take the Town approximately 3 to 5 years to determine what is owed and make appropriate payments. Approximately \$21,000 probably will be in the Town budget for the ensuing 3 or 4 years. As of this writing, the towns also are responsible for the burial of poor persons dying in the town of their residence.

Planning

Elsewhere in this report is a statement of the Town Planning Commission of its activities for the year. The past twelve months saw an increase in planning activities and it is the hope and intent that this function, so vital to the Town's orderly growth and development, will continue to function and be productive for the Town.

Sidewalks — Essex Center

In the proposed Highway budget for the Town, there is \$55,000 for sidewalk construction in Essex Center. Also Article 9 of the Town Warning requests authorization for the Selectmen to construct the proposed sidewalks. This program, as tentatively developed, proposes to build approximately 2½ miles of sidewalk in Essex Center along Route 15 and Sand Hall Road—enabling every child in Essex Center to walk to school. Bus transportation for this group of children, therefore, possibly would be unnecessary. The secondary purpose is to provide means for all pedestrians to walk the main thoroughfares of Essex Center in a safe manner off the heavily traveled highway. The Town Planning Commission and the Town of Essex School Board have reviewed this sidewalk proposal and both groups have given wholehearted support to the project as a vitally needed community facility and a savings to the taxpayers—possibly elimination of the need to transport the children in Essex Center.

It is anticipated that these sidewalks will cost approximately \$55,000. If this project is approved, the Town will borrow the \$55,000 to finance the construction and will repay the principal and interest over a period of approximately 6 years—\$12,000 annually. This appears to be a reasonable expenditure for the safety and well-being of the community of Essex Center and represents a well-planned investment in public facilities.

Sanitation

The Town of Essex took over the operation of the sanitary landfill in 1968. It is believed that most of the difficulties incurred are being solved and the community rapidly is approaching the point of having a well-developed and well-run landfill operation. New equipment—a bulldozer designed for landfill work—has

been purchased and plans are in progress for the housing and maintenance of this equipment. Building and equipment costs for the year are included in the proposed budget. The equipment purchase was partially paid from 1968 funds, and the balance will come from 1969 monies. A vast improvement and upgrading of the sanitary landfill operation with the elimination of many of the objectionable aspects of this facility should take place during the coming year.

Financial

As a result of the 1968 Grand List rising to \$358,000, \$25,000 greater than anticipated, both the Town Highway fund and the Town General fund had a good financial year. All expenditures were met, all bills paid, and all planned debt reduction carried out. In addition to the planned expenditures, the Town found it possible to retire an additional \$20,000 of accumulated non-equipment debts (a total of \$30,000) and apply \$10,000 to the purchase of the bulldozer for the sanitary landfill.

For the year 1969, no innovations or unusual expenditures are contemplated other than the sidewalk program mentioned above. As stated, this program, if approved, will be financed by borrowed funds and will not reflect in the 1969 tax rate. The Town should be able to carry out all its responsibilities during the year with no change in the tax rate. It is proposed that the Town Highway tax remain at thirty-six cents and that the Town General tax remain at seventy-one cents. All increases in the costs of doing Town business necessitated by normal inflationary factors should be met by the anticipated increase in the Grand List of both the Town Highway district and the Town General. Also the welfare budget is reduced by approximately \$40,000 allowing these funds to be applied to other areas.

We wish to take this opportunity to thank the citizens of the Town of Essex and all of the Town employees for their cooperation and efforts during 1968. Without such help the year would not have been nearly so successful.

Respectfully submitted,

DONALD E. BIXBY

ROBERT M. WHITCOMB, JR.

ALBERT C. LAIRD, JR.

(Resigned Jan. 31, 1969)

JOHN F. SMITH

TOWN AUDITORS' REPORT

The Auditors, Selectmen, and Town Manager met with a representative of the P. F. Jurgs Company of Burlington, Vermont, and examined the report of audit of the Town of Essex and the Town of Essex School District.

We, the Auditors, accept the following report as made.

FRANK R. BENT, Chairman
RAY E. TUCKER
PERRY H. TOWERS

**P. F. JURGS & COMPANY
ACCOUNTANTS AND AUDITORS
BURLINGTON, VERMONT**

February 4, 1969

To the Selectmen of the
Town of Essex,
Essex Junction, Vermont.

Gentlemen:

In accordance with instructions, we have examined the books and records of the Town of Essex, Vermont, for the year ended December 31, 1968, and submit herewith our detailed report with the understanding that any part or all of the schedules be published in printed form.

Our examination was made in accordance with generally accepted governmental auditing standards, except for direct confirmation of delinquent taxes, receivables and payables, but included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

It should be noted that the majority of the statements are prepared on the cash basis, which do not reflect accounts receivable or payable, and in our opinion present fairly the recorded revenues collected, expenditures made and unexpended balances at year end. Balance Sheets have been prepared for certain funds but since they do not include fixed assets and inventories, we cannot express an opinion on these statements as a whole.

P. F. JURGS & COMPANY

**HEALTH OFFICER REPORT
TOWN OF ESSEX
1968**

Essex, like Topsy, continues to grow and grow and accordingly our problems grow. In this instance, however, I am happy to report that the problems are neither serious nor insurmountable.

Most of the sanitation problems are still centered around septic systems, where such exist. For the most part the complaints concern systems which are inadequately installed, improperly maintained, or draining on land other than the owner's land. Most deficiencies were corrected without difficulty with the prescribed time.

Although Essex enjoys the privilege of having few slum buildings, those which do exist are unsightly, unsanitary and unsafe. A more intense effort must be made to urge the landlords of these dwellings to either "shape up or ship out." This Health Officer intends to make every effort in the coming year to see that such dwellings are brought up to minimum standards or they will be condemned. The accomplishment of this objective will require the utmost cooperation of the town officials and legal officers.

For the most part the Essex water supply has enjoyed a good reputation this year, and much of the credit for this must go to our engineers and the water board. They have constantly sought advice and counsel to maintain a palatable, safe water supply.

The following is a report to the residents of Essex describing the health services which have been rendered during the state fiscal year July 1, 1967 through June 30, 1968. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

The following is a list of some of the health services to the residents of Essex:

Attendance at State Public Health nurse sponsored well-child conferences and Immunization Clinics	612
Number of children given pediatric consultations or hospital diagnostic services	8

Number of children served at the child development clinic	15
Number of children aided at handicapped children's clinics for speech, hearing, orthopedic, plastic, neurological, or cardiac problems	45
Dental health education: number of children served in schools	1,302
People x-rayed for tuberculosis detection	49
Attendance at tumor clinics	7
People x-rayed for occupational diseases	0
Attendance at diabetes clinics or physician screening for diabetes	407
Diphtheria, Tetanus, Whooping-cough immunizations	50
Polio immunizations	382
Smallpox immunizations	37
Measles immunizations	178
Number of water samples tested (private & public supplies)	757
Blood specimens tested (pre-marital, pre-natal, and other)	585
Other laboratory specimens	1,147
Sanitary inspections, consultations (food & lodging, camps)	525
Water, sewage disposal, public buildings & other inspections	168
Medical Care Services: nutrition and dietary consultations, inspections and consultations to hospitals, nursing homes, home for the aged, and home health service agencies	3
Public Health Nurse visits	110
Number served by Public Health Nurse visits	31

Respectfully submitted,

EDWARD E. FRIEDMAN, M. D.

Health Officer, Town of Essex

VISITING NURSES ASSOCIATION

Essex Annual Report

January 1, 1968 — December 31, 1968

The Visiting Nurse Association has continued in the past year to show growth and expansion not only geographically but in services offered to communities in the surrounding area. Essex has shown a gradual monthly increase in numbers of individuals served and visits made. Those services available to individuals residing in Essex include: Nursing, occupational and speech therapy, mental health and homemaker-home health aide services. Family health guidance and education in such specific areas as maternal and infant care, child growth and development, prevention of illness and accidents, etc., are part of the home visiting program. Preparation for parenthood classes given by this Agency and held at the Mary Fletcher Unit of the Medical Center are open to Essex residents.

Close liason is maintained with other health personnel such as physicians, school nurses and the Medical Center in developing and providing services. We appreciate the Town's continued interest and support in helping to make these services available for its residents.

Lisbeth K. Stouch, R. N.

Executive Director

ESSEX TOWN PLANNING COMMISSION REPORT

Since the adoption of the Town Master Plan a year ago the Town Planning Commission has assumed the responsibility delegated to them by the Selectmen of reviewing all development plans submitted to the Town. The Commission's main area of concern in reviewing plans is to see that new development is in compliance with — or at least does not seriously conflict with land use as prescribed in the town plan; also reasonable assurance that new development will not place added financial burden on the town at a later date.

The Town Planning Commission has met regularly with the Essex Junction Planning Commission and jointly prepared a new town charter proposal. It is felt that a charter is desirable in the Town of Essex because State Statutes do not allow for many of our needs. This charter would be applicable to the town with or without town and village merger. This proposal is now in the hands of the town attorney for legal review.

The joint Planning Commissions are now in the process of writing a new zoning ordinance proposal. Although district uses and regulations will differ this ordinance will give town and village compatibility and could be administered jointly.

One Commission member (Robert E. Kennison) is appointed by the Selectmen to represent the Town on the Chittenden County Regional Planning Commission. This serves to coordinate Essex Town planning with that of other municipalities in Chittenden County.

The Planning Commission has had no local expenditures to the Town this past year. As noted in the budget the Selectmen have asked for an appropriation this year. Professional assistance may be needed in connection with the new zoning ordinance, the beltline proposal and other possible concerns to the town.

It should be noted that all action taken by the Planning Commission is in the form of recommendations to the Selectmen.

Respectfully submitted,
 NOAH C. THOMPSON, Chairman
 MERRITT W. SHELDON
